LeanNET® Grid Manager
No Hassle Custom Grid Integration

GED
Integrated Solutions
Software Process Systems
by NxWare

FEATURES

▶ Integrates LeanNET Grid Designer Template information into WinIG-i3 version 2.x merge files.

▶ Automatically converts WinIG-i3 version 1.x merges files to version 2.x merge files.

▶ Pertinent patterns can be flagged to automatically display for pass-fail inspection.

▶ Powerful popup features allow quick pin-pointing and "On The Fly" changes of grid information.
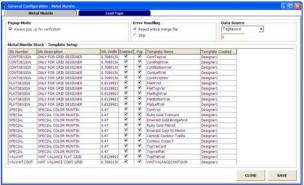

BENEFITS

▶ No hassle integration of Custom Grids into WinIG-i3. Improves operational efficiency by reducing custom grid errors.

▶ Removes IT involvement of having to implement a new merge file format.

▶ Reduces production grid errors by allowing Specified Grid Configurations to be viewed before production begins.

▶ Increases production by allowing "Visual" verification of "On The Fly" grid changes.
