

INTRODUCING GED'S *NEW* ULTRA TOOLING RECONDITIONING PROGRAM!

To help reduce your maintenance costs, GED has developed a process to recondition used **ULTRA tooling**, which can save you an average of **45%** over new tooling costs!

TO PARTICIPATE

- Send GED Technical Support a list of the used ULTRA tooling you wish to return via Fax or email (see *Qualifying Tooling List*).
- Upon receipt of your list, GED will issue you an "RMA" for qualifying tooling.
- Once the used tooling is returned to GED and qualified, GED will then issue you a **\$50** credit per tool, and it will be reconditioned. This \$50 credit can be applied toward the purchase of new/reconditioned tooling or any other GED Part purchase.
- All reconditioned tooling will be etched with "REMAN" and placed into the GED inventory available for general purchase.
- Tooling can be reconditioned once only.
- Orders for reconditioned tooling will be filled based on availability. If any tool is out of stock, it will remain backordered until additional reconditioned tooling becomes available.
- **PLEASE NOTE:** When ordering reconditioned tooling, please be sure to add an "R" after the GED Part No. (Example: #3-17830 becomes #3-17830-R)

QUALIFYING TOOLING LIST (Listed in order of GED Part No., Description and Reconditioned Tool Price)

- #3-17830, WAFER, PUNCH/CORNER, ULTRA: \$225.00
- #3-17831, WAFER, DIE, CORNER, ULTRA SS: \$272.00
- #3-17834, FORM WAFER, CORNER, ULTRA SS: \$252.00
- #3-17835, FORM WAFER, LEAD, NON-OP. SIDE, ULTRA: \$264.00
- #3-17836, WAFER, PUNCH, LEAD, NON-OP. SIDE, ULTRA: \$238.00
- #3-17837, WAFER, DIE/LEAD EDGE, ULTRA SS: \$299.99
- #3-17840, FORM WAFER, LEAD, OP. SIDE, ULTRA: \$264.00
- #3-17842, WAFER, DIE, MUNTIN, ULTRA SS: \$252.00
- #3-17843, PUNCH, MUNTIN, ULTRA SS: \$150.00
- #3-20994, DIE, CORNER, I-3 ULTRA: \$272.00
- #3-20997, WAFER, DIE/LEAD EDGE, ULTRA: \$267.00
- #3-21004, WAFER, DIE, I-3 ULTRA: \$203.00
- #3-21006, PUNCH, END/START, I-3 ULTRA OP: \$154.00
- #3-21009, PUNCH, END/START, I-3 ULTRA NON-OP: \$154.00
