

Dynamic. Continuous. Flexible.

i About

The CleanCut Cutting Edge & Deletion System is part of GED's Automated glass cutting systems that provide improved quality and productivity. CleanCut's dual bridge simultaneous cutting and edge deletion maintains the industry's leading cycle times and highest throughput. Plus, GED's exclusive design gives freedom to delete in any direction and adjust wheel speed for changes in wheel diameter, making it simple to fulfill any customer's cutting needs. Get the best results possible for deletion and break out for greater IGU quality. The dynamic operation sequence software provides numerous options for sorting, including window line, tempering, beveling and laminating and the fastest way to process each sheet.

✓ Features

- Unlimited shape cutting capabilities with automatic pneumatic controlled cutting head based on glass stock – capable of tight radius cuts
- 360° rotating deletion head with self-dressing system
- Fully integrated with GED optimization and software modules
- Integrated one-touch remake capability
- Shop floor optimization and easy-to-use Manual Data Input (MDI)
- Integration with several automatic glass loading options.
- Multi-function breakout monitor with 6 mounting locations
- Automatic non-contact glass squaring
- Floating cutting head

Performance Specifications

- **Max. lite size:** 108" x 144" x 5/8" (2.74m x 3.66m x 15.88mm)
- **Min. lite size:** 48" x 60" x 3/32" (1.22m x 1.52m x 2.38mm)

	Cut	Delete
Straight	6000in/min (152.4m/min)	4000in/min (101.6m/min)
Diagonal	2000in/min (50.8m/min)	2000in/min (50.8m/min)
Arc	1000in/min (25.4m/min)	1000in/min (25.4m/min)

System Software

- Windows™ Operating System
- WinCut® i-3 with
 - Manual Data Input (MDI) capabilities
 - Operator help screens
 - Software diagnostics (Maintenance troubleshooting of components)
 - Shapes capability
 - Software for remote diagnostics

Standard Equipment

- Ethernet File Transfer
- CNC Cutting Table
- Float Table
- Breakout Table

Software Upgrade Options

- WinCut i-3 with LookAhead
- RemakeNow®
- WinIG® Front Office
- i-Sight

Complimentary Products

- Glass loading systems
- Glass Harp Carts
- Free-Fall Glass Rack & Base

LookAhead Option

- Dynamic optimization to minimize scrap including:
 - Optimization across multiple batches/schedules
 - Multiple last sheet options
 - Minimum yield sheet selection
 - Filler lite insertion
 - Automatic remake insertion and optimization
 - Hot (rush) schedule insertion on-the-fly

Preferred Service Package

- Pre-installation service call
- Machine installation
- Standard GED 1-Year Equipment Warranty
- Machine operator/maintenance training

About GED Integrated Solutions

GED Integrated Solutions is a Worldwide Supplier of fully integrated insulating glass (IG), vinyl window and door robotic automation fabrication systems and software. GED leads the industry with quality, capacity and cost-effective solutions as demonstrated by the revolutionary *Intercept*® Warm Edge spacer frame production systems as well as our innovative vinyl automation systems and value-driven scheduling and analytics software. GED's commitment to innovation, that addresses our customers' needs, is proven by the fact that 22 of the top 25 window and door manufacturers utilize GED's equipment and software.
