

Innovative and user-friendly.

i About

A fully adjustable assembly station allows for faster assembly and improved ergonomics to maximize your throughput. This product is highly versatile: glazing bead application; latch and hardware installation; balance spring installation; sash installation; muntin insertion; and many other vertical assembly processes.

✓ Features

- Rugged steel design for a long-lasting product with superior parts and service support
- Designed by muntin experts — precisely engineered to fit your plant requirements
- Assembly station is fully adjustable, for faster assembly and improved ergonomics
- Durable wheels and support bands for safe and scratch free transport of finished muntin assemblies
- Four sturdy shelves offer plenty of space for all hardware and tool storage
- Open back design allows the shelves to be restocked without disrupting workers, reducing downtime
- Front work surface is tilted back 10° for assembly of materials without clamping
- Work surface easy to adjust to any height for the comfort and safety of workers
- Available in two standard widths of 3' and 5' work surfaces
- Standard height of 7' and 3' deep at the base

▶ **Preferred Service Package**

- Standard GED 1-Year Equipment Warranty
