

Swivel ball casters support glass or units across the entire surface of the table.

## i About

Simplify glass handling by using Roller or Caster Tables throughout your manufacturing process. Designed with easy glide wheels for improved glass handling and reduced scratching. Available in custom and standard sizes, tables are made of steel for long life, with minimal maintenance. 360° swivel ball casters or flat rollers support glass or units across the entire surface of the table.

## ✓ Features

- Rugged steel design for a long lasting product
- Designed by glass experts for multiple sizes and types to fit your plant requirements
- 360° industrial quality casters to improve handling and reduce scratching

► **Preferred Service Package**

- Standard GED 1-Year Equipment Warranty
