

Safe. Quiet. Smart.

84" and 96" options

i About

This revolutionary washer improves washing and drying of pre-cut glass for IGUs. Operators are no longer exposed to dangerous chain-driven rollers with the addition of simple, safe, easily replaceable drive belts. Operators can now see the entire processing area – as the full length of the washer is utilized – and do not have to wear OSHA required hearing protection. With stainless steel material throughout, the manufacturer is ensured corrosion-free long life performance even when running DI water. Its Flow Meters monitor water flow to meet manufacturers' specifications and reduce water consumption.

✓ Features

- Low profile washer design allows operators to see entire processing area
- 100% stainless steel construction is fully DI compatible
- Low maintenance ring roller drive system
- Fully brushed pre-wash section
- Super Scroll™ Quick Clean-Out System for easy removal of broken glass
- Revolutionary air knife design
- Sleep mode automatically cycles to keep brushes fully wet when conveyors are off
- Four independent sections (pre-wash, wash, pre-rinse and final rinse) eliminates cross-contamination and controls water temperature
- Standard super quiet operation (<85 dbA)
- Modular sections for easy maintenance
- Quick disconnect spray nozzles

Performance Specifications

- **Production Speed:** 3.5 to 30ft/min (9.14m/min) adjustable

	Minimum	Maximum
Glass Size (width)	9 1/2" square on all models (241.3mm)	84", 96" depending on model (1.52m, 2.13m, 2.44m)
Accepts Multiple Thicknesses*	single strength 3/32" (2.38mm)	1/4" (6.35mm)

*Without machine adjustment

Standard Equipment & Options

- Anti-static bar to eliminate attraction of dust
- Entry and exit conveyors
- High pressure tank clean out system
- DI compatibility
- Full brush pre-wash
- Audible low-E detector
- Low water level sensors
- Reverse triple rinse water re-circulation
- Final fresh water rinse

Upgrade Options

- Complete AquaSave™ Water Treatment System
- AquaSave Water Treatment System - RO System
- AquaSave Water Treatment System - Zero Use Filtration
- AquaFresh™ Filtration System
- Air Knife Height Adjustment Kit
- Spare Parts Kits
- Jib Crane for Raising and Lowering Sections
- Push button master start interlock kit

Complimentary Products

- Swivel Caster Section
- Glass Harp Carts
- IGU Assembly Table
- U-shaped space-saving conveyor processing system with oven

Preferred Service Package

- Pre-installation service call
- Machine installation
- Standard GED 1-Year Equipment Warranty
- Machine operator/maintenance training

About GED Integrated Solutions

GED Integrated Solutions is a Worldwide Supplier of fully integrated insulating glass (IG), vinyl window and door robotic automation fabrication systems and software. GED leads the industry with quality, capacity and cost-effective solutions as demonstrated by the revolutionary *Intercept*® Warm Edge spacer frame production systems as well as our innovative vinyl automation systems and value-driven scheduling and analytics software. GED's commitment to innovation, that addresses our customers' needs, is proven by the fact that 22 of the top 25 window and door manufacturers utilize GED's equipment and software.
