

MAIN DIMENSIONS

Dim.	Range	Note
a1	78..88°	Tilt angle
h1	645..3728 mm	Measuring height
h2	85 mm	Measuring head below measuring point
h3	585 mm	Max table height when using lowest measuring height
h4	60-70 mm	Typical mounting height from factory floor using standard adjusting bolts
h5	480 mm	Typical height above glass line top
h6	4340	Typical total height at highest mounting screw setting
h7	4120	Typical total height without laser beam extension
z1	15-210 mm	Default measurement head distance range
z2	min 30 mm	Minimum clearance between glass-line and Online
w1	1670 mm	Total width with access shields
w2	572 mm	Tower body width
w3	630 mm	Minimum required mounting width on floor
